Professional Eye Care

Variety of Lenses

Daily Disposable lenses

For occasional lenses, Focus® Dailies™ offer convenient, perfect vision whenever you chose, whether for sport, holidays or simply to have more choice. A fresh new lens every time.

Dailies™ contact lenses are available to correct astigmatism (irregular shaped eye) and for people who wear reading glasses or bifocals.

Frequent Wear

If you want to wear contact lenses more frequently, Focus Monthly soft contact lenses are great value for money. You will need to take care to keep them clean with disinfecting solution each time you wear them.

Monthly Lenses

The AIR OPTIX® range of soft contact lenses offers some of the most breathable contact lenses. You will need to take care to keep them clean with disinfecting solutions each time you wear them.

AIR OPTIX range includes lenses for daily, extended (up to 6 nights) and up to 30 nights continuous wear.

24 Hour Wear

For perfect vision 24 hours a day, Focus Night & Day® continuous wear contact lenses reduce the handling of your contact lenses to once a month giving you continuous perfect vision, night and day.

Fun Wear!

Create a new look with fashion lenses that change or enhance the colour of your eyes! Freshlook® lenses will make your eyes look their most dramatic with effects from subtle to dramatic, whether or not you need sight correction.
